Flat Size: 8.5" W x 11 H

**Your Submitted/Output File One
Single page - (1) Pages Each
Page 8.75"x 11.25"
(includes the .125" bleed)**

**No Registration Marks
No Bleed or Trim
Marks No Color Bars**

SAFE MARGIN: Your file needs to include a 0.125-.25" safe margin necessary for production. Safe margin is the area around the edge of the sheet. If the safe margin is not included in document setup, there is a chance that the art close to the edge will get cut off, due to machine shift during cutting. This happens because there is a tolerance when cutting the printed piece.

CUT LINE (FINISHED SIZE): This is where your artwork will be trimmed.

BLEED: Your file needs to include a 0.125" bleed necessary for production. Bleed is printing that goes beyond the edge of the sheet after trimming. If a bleed is not included in document setup, there is a good chance there will be a gap between the edge of the printed area and the cut line. This happens because there is a tolerance when cutting the printed piece.

FOLD LOCATIONS: Not required will be generated with this file output
