A7 ENVELOPE

Size: 7.25"W x 5.25"H

A diagram of an A7 envelope showing various margins. A green border represents the safe margin, with a 0.5" margin on the left and right sides. A vertical dimension line on the left indicates a 2.75" margin from the top edge to the bottom of the safe margin. A vertical dimension line at the bottom indicates a 0.625" margin from the bottom edge to the bottom of the safe margin. A horizontal dimension line on the right indicates a 0.5" margin from the right edge to the right side of the safe margin.

SAFE MARGIN: Your file needs to include a 0.25" safe margin necessary for production. Safe margin is the area around the edge of the sheet. The safe margins on envelopes are larger than our other printing products and we are unable to print all the way to the edge of the envelope. Please ensure there is no art inside of the safe margin for envelopes.

CUT LINE (FINISHED SIZE): This is where your artwork will be trimmed.

BARCODE: The Intelligent Mail barcode is about 2.625" and can be included in the address block if there is at least 3.5" of horizontal space available in the address area. If the barcode is not included in the address block, it will be placed across the bottom of the card toward the right side corner.

BLEED: We are unable to have artwork bleed on envelopes.
